This includes, for example, your name, date of birth, e-mail address, postal address, or telephone number as well as online identifiers such as your IP address. In contrast, information of a general nature that cannot be used to determine your identity is not Personal Data. This includes, for example, the number of users of a website.

### *a) Security*

Our website uses SSL or TLS encryption to ensure the security of data processing and to protect the transmission of confidential content, such as orders, login data or contact requests that you send to us.

## Privacy Policy

You can recognise an encrypted connection if the address line of your browser contains a "https://" instead of a "http://" and also has a lock symbol. If SSL or TLS encryption is activated, the data you transmit to us cannot be read by third parties.

Nevertheless, internet-based data transmissions can always have security gaps, so that absolute protection cannot be guaranteed. And databases or data sets that include Personal Data may be breached inadvertently or through wrongful intrusion.

Upon becoming aware of a data breach, we will notify all affected individuals whose Personal Data may have been compromised as expeditiously as possible after which the breach was discovered.

### *b) Minors*

We will not knowingly collect, use or disclose personal information from minors without first obtaining consent from a legal guardian through direct contact.
